JCDecaux renews twelve regional Street Furniture contracts in France

Out of Home Media

Paris, November 27, 2007 - JCDecaux SA (Euronext Paris: DEC), the No.1 outdoor advertising company in Europe and in the Asia-Pacific region, and No.2 worldwide in this industry, has renewed twelve regional street furniture contracts in France, following competitive tenders over the last few months. The cities represent a total population of around 400,000 inhabitants.

These contracts concern a total of 1,495 2m² advertising panels and 256 8m² Senior® displays. The municipal authorities that have chosen JCDecaux are the following: Albertville, Andernos-les-Bains, Belfort, Bourg-en-Bresse, Cenon (new contract), Chantilly, Cholet, Hyères, Menton, Montigny-les-Metz, Niort et Saumur. The street furniture to be installed has been designed by JCDecaux or by the prestigious designers and architects: Lord Norman Foster and Philip Cox.

When these contract renewals were announced, Jean-Charles Decaux, co-CEO of JCDecaux, said: "We are delighted that these towns have chosen JCDecaux, reinforcing our commitment to quality, innovation and sustainable development in street furniture. These contracts consolidate our front-ranking position in outdoor advertising in France."

JCDecaux receives the 2007 Investment Prize in Japan

Out of Home
Media

Paris, November 20, 2007 – JCDecaux SA (Euronext Paris: DEC), the No.1 outdoor advertising company in Europe and No.2 worldwide, announces that MCDcaux (a joint venture between JCDecaux SA and Mitsubishi Corporation, in which JCDecaux owns a 60% interest) was recently awarded the 2007 Investment Prize in Japan by the Nikkei and the French Agency for International Investment (AFII).

This prize, which sets out to reinforce the economic image enjoyed by France in Japan, has now been awarded for the fourth time; award-winners in previous years include Axa, Lafarge, Renault, Air Liquide, Michelin and Saint-Gobain.

By introducing the bus shelter advertising concept to Japan, MCDcaux has familiarised local Japanese authorities with a new economic model that offers citizens a free service while simultaneously helping to improve the facilities offered by the city. This concept was invented by JCDecaux in France. MCDcaux has also managed to make its activities an integral part of the Japanese economy by working closely with local designers, manufacturers and advertising agencies as well as by creating new jobs with the appointment of a Japanese team.

As the largest operator of advertising networks on bus shelters and in shopping centres in Japan, MCDcaux is now present in 13 of the 20 largest Japanese cities, including Yokohama, Osaka and Nagoya, and manages 130 shopping centres that attract 60 million consumers every month.

Thomas Guéron, Chairman of MCDcaux, was presented with this award by Philippe Favre, Chairman of AFII.

Jean-Charles Decaux, CEO of JCDecaux, made the following statement: *"This award pays tribute to the quality of the work carried out over the past seven years both with our partners from Mitsubishi Corporation and by our local teams, to whom I would like to extend my warmest congratulations. As this award demonstrates, JCDecaux continues to win recognition as a pioneering company after 43 years in operation, maintaining the highest standards in terms of quality and innovation throughout the world. This prize also symbolises our ability to create, thanks to our organic growth, new value in the countries in which we do business and so contribute to the dynamism of their local economies."*

Vélo Toulouse: successful launch with more than 9,000 rentals in 3 days

**Out of Home
Media**

Paris, November 19, 2007 - JCDecaux SA (Euronext Paris: DEC), the No.1 outdoor advertising company in Europe and in the Asia-Pacific region, No.2 worldwide in this industry, and No.1 in self-service bicycle hire, announces that the *Vélo Toulouse* bicycle hire scheme was officially launched on Friday, November 16 by the Mayor of Toulouse and that it enjoyed an exceptional public interest with a total of 9,000 rentals in the space of 3 days.

The *Vélo Toulouse* bicycle hire scheme includes 60 docking stations and 600 bicycles available as of November 16, a total due to be expanded to 253 docking stations and a fleet of 2,400 bicycles in April 2008. The launch of this bicycle hire operation has led to the creation of 42 new jobs, taking to 190 the number of people employed by the Regional Division.

The *Vélo Toulouse* bicycle hire scheme represents a new step for JCDecaux in its ability to provide local authorities with a system that enjoys an innovative market positioning. By reinventing the use of bicycles in an urban environment, based on the principle that bicycles represent a fantastic addition to the use of public transport, JCDecaux is aiming to make its self-service bicycle hire scheme a true form of individual public transport. By making its price accessible to everyone, it is making this service truly democratic and, in the process, speeding up society's adoption of a more sustainable urban environment.

Jean-Charles Decaux, co-CEO of JCDecaux, said: *"Thanks to this eco-friendly means of transport, JCDecaux is helping to improve the quality of life in Toulouse. With more than 9,000 rentals in 3 days, and 3,390 rentals only on Saturday, I am glad to observe that the Toulouse inhabitants have already adopt this new form of individual public transport."*

HSBC wraps Vélô Toulouse

Paris, November 16, 2007 - JCDecaux SA, (Euronext Paris: DEC), is launching Vélô Toulouse, the self-service bicycle hire scheme in Toulouse, with HSBC as its advertising partner.

Vélô Toulouse is the first self-service bicycle hire scheme in France to include advertising displayed on the bicycles to help to finance the service. HSBC will be the first advertiser to use the bicycles as an advertising medium. Advertising for the bank will be carried on Vélô Toulouse for an initial period of one year.

HSBC will wrap an initial 600 bicycles with advertisements covering the left- and right-hand chain guards.

By mid December, 1,000 bicycles will display the HSBC colours.

Part of an extension to the bank's corporate advertising policy, the campaign is specifically designed to set HSBC apart from its competitors and to innovate through the use of original advertising media. As early as 2005, HSBC France was notable for its advertising in airports, in partnership with JCDecaux. More recently, high-speed TGV trains, trams and buses have been wrapped in HSBC colours.

This latest initiative also corresponds to the activities pursued more generally by the HSBC Group to heighten people's awareness of the impact of global warming and the need to adapt at an economic level.

Isabelle Schlumberger, Executive Vice-President, Commerce & Development of JCDecaux, said: "As the first French city to choose a self-service bicycle hire scheme financed, in part, by advertisements on the bicycles themselves, Toulouse has provided itself with the means to enjoy a particularly large-scale and attractive system. We are delighted to have HSBC France as an advertiser on Vélô Toulouse for this national 'first'."

Chantal Nedjib, Director of Communications of HSBC France also said: "This campaign follows the success of the different outdoor advertising campaigns organised by HSBC France on innovative and unexpected media that enhance the Group's public image as an international local banking institution: in airports all over France, on buses, tramways and high-speed TGV trains in the regions."

Yann Lebrusq, Director of the Toulouse Midi-Pyrénées Division of HSBC France, added: "HSBC France is extremely proud to be associated with this 'first' that reinforces our image in Toulouse among our customers as an innovative and environmentally friendly banking institution."

**Q3 revenues up 11.8% to €487.9 million,
supported by record organic revenue growth (+12.2%)**

Paris, 6 November 2007 – JCDecaux SA (Euronext Paris: DEC), the number one outdoor advertising company in Europe and Asia-Pacific and the number two worldwide, announced today its revenues for the nine months ended 30 September 2007, reporting a 9.0% increase to €1,506.9 million compared to the same period last year. Excluding acquisitions and the impact of foreign exchange, organic revenues rose by 8.6% for the first nine months of 2007.

In the third quarter, revenues increased strongly by 11.8% to €487.9 million. Excluding acquisitions and the impact of foreign exchange, organic revenues increased by 12.2%. Organic revenues grew faster than reported revenues due to a weaker US and Hong Kong dollar versus euro compared to the same period last year. These revenues reflect the continued strong progression of Transport, which reached a record 24.2% organic revenue growth rate in the quarter, an improvement in Street Furniture revenue growth, the continued solid growth of Billboard and improved market conditions in France.

Street Furniture revenues for the first nine months of 2007 increased by 6.2% to €737.4 million. Excluding acquisitions and the impact of foreign exchange, organic revenues increased by 5.0%. Core advertising revenues, excluding revenues related to the sale, rental and maintenance of street furniture contracts, rose by 6.2% organically.

In the third quarter, revenues increased by 8.9% to €227.1 million (+8.1% on an organic basis) compared to the same period last year. Core advertising revenues, excluding revenues related to the sale, rental and maintenance of street furniture contracts, rose by 8.5% organically. In Europe, double digit revenue increases were reported in Belgium, Austria and Scandinavia, while high single digit advertising revenue growth was achieved in both the United Kingdom and France. Solid revenue growth was also achieved in Spain and the Netherlands, while Asia-Pacific and the Rest of the World recorded double digit revenue growth over the period.

As previously indicated, the renewal of certain major Street Furniture franchises, as well as further expansion in emerging countries, is expected to decrease the division's operating margin as a percentage of revenues in the second half of 2007 compared to the same period last year. However, this decrease will be partly offset by an expected acceleration in organic revenue growth in Street Furniture and margin expansion in the Transport and Billboard divisions, where the company continues to benefit from good operating leverage.

Transport revenues for the first nine months of 2007 increased by 15.0% to €410.6 million. Excluding acquisitions and the impact of foreign exchange, organic revenues increased by 16.3% over the period.

In the third quarter, revenues increased by 20.9% to €144.1 million. Organic revenue growth reached 24.2% over the period, reflecting the continued dynamism of this business in most of our key markets.

Double-digit revenue growth was achieved in most European markets including France, the United Kingdom, Spain, Italy, Portugal and Scandinavia. Double digit revenue increases were also achieved in mainland China, Hong Kong and the United States, which benefited from rising revenues from the Los Angeles Airport advertising program.

Billboard revenues for the first nine months of 2007 increased by 8.5% to €358.9 million. Excluding acquisitions and the impact of foreign exchange, organic revenues increased by 7.7% over the period.

In the third quarter, revenues increased by 7.6% to €116.7 million (+6.8% on an organic basis). The United Kingdom business, which produced double-digit organic revenue growth, reported the best performance overall, benefiting from a strong market outperformance, earlier investment in its high-quality "Premiere" advertising network and the recently-signed contract with BT payphones. Double digit growth was also recorded in Spain and Portugal while revenue progression was solid in Ireland. In France, revenues were slightly down over the quarter.

Commenting on the third quarter revenues, Jean-François Decaux, Chairman of the Executive Board and Co-CEO, said:

"The growth of our Street Furniture business accelerated in the third quarter and we saw continued strong growth in Transport and Billboard. These strong revenues reflect factors which we also expect to support our longer-term growth, in particular: the outperformance of outdoor advertising compared to the advertising sector as a whole, encouragingly in some of the largest advertising markets in the world such as the US, UK and Germany; our well invested assets and innovative products supported by experienced management; and our emphasis in recent years on expansion in higher growth emerging markets including China.

Given our third quarter performance, we now expect that our organic revenue growth in 2007 will be slightly ahead of 8%, compared to our previously indicated range of 7-8%, reflecting ongoing strength in the Transport division, a stronger growth rate in Street Furniture and improved market conditions in France."
